MOUNTCOR HEAT ACTIVATED by Gilman INSITE w/SPECIAL AIR RELEASE TECHNOLOGY

MountCor's adhesive forms a strong, permanent bond, as low as 130°F bonding temperature, with a dwell time of 30 secs in a mechanical press and 2-3 min in a vacuum press. Safe to mount all digital imagery, laser, plotters, water borne, solvent, UV, resin coated, posters & prints, synthetic papers & substrates and polyester encapsulated charts. MountCor's translucent, gridded release liner makes positioning images easier than ever. Each board comes with the disposable release liner. The special air release technology ensures a completely bubble-free mounting. MountCor Canvas is the first and only HA board developed for mounting digitally printed canvases and fine art giclees that cannot be stretched. 3-4 min in a vacuum press.
