MIRACLE CORD PICTURE WIRE

Made of Twaron®, an innovative synthetic fiber that is stronger than steel with exceptional flexibility. It is not stiff or twisty. Very user-friendly, it will not prick your fingers or corrode or kink. Black cord is easy to handle, easy to attach and exceptionally strong and secure. It will

NOT stretch or slip. Stronger than common picture wire, very pleasant to handle, non-corrosive and combined with our unique Quick-Clip attachment method makes this the best and most advanced system for hanging most frames. The clean, attractive finished look is a major plus. Tested and proved by framers for 20 plus years.

Item #	Description	Uses Clip #	Appx ft. per Spool	Pic. Wt.	1 Roll
1345	<input checked="" type="checkbox"/> Light Cord Ideal size for smaller frames and narrow moldings.	1348	1200'	20 lbs.	
1346	<input checked="" type="checkbox"/> Regular Cord Ideal size for most regular size frames and moldings.	1349	1000'	40 lbs.	
1347	<input checked="" type="checkbox"/> Heavy Cord Ideal size for most large heavy frames and moldings. Clip uses two screws for added strength or where wood molding is soft.	1350	600'	80 lbs.	

QUICK CLIP ATTACHMENT SYSTEM

Just knot the cord and snap it in place. Softly rounded, the low-profile clip is black like the cord and is very strong.

Attaching Quick Clip to frame

Item #	Description	Pkg/Box	Uses Wire #	1 Roll
1348	<input checked="" type="checkbox"/> Quick Clip Jr.	200 w/black screws	1345	
1349	<input checked="" type="checkbox"/> Quick Clip I	100 w/black screws	1346	
1350	<input checked="" type="checkbox"/> Quick Clip II	100 w/black screws	1347	

DECOR SUPER WIRE CUTTER

This tool has diagonal cutting jaws to reduce frayed ends and cut effortlessly through SuperSoftstand, Softstrand and all other brands of picture wire (ie. all sizes of braided wire, stand wire, and coated wire). It has a built-in spring for quick, easy cutting and heavy duty construction provides dependable, long-lasting use. It is a great tool for any framing workshop.

Item #1344

HEAT SHRINKABLE WIRE WRAPS

WireWraps are heat shrinkable black wire covers that end frayed picture wire and add a safe professional touch to framing jobs. Simply feed the wire through a pair of WireWraps before running them through the picture hooks, slide the WireWraps over the wrapped wire sections and shrink wrap tightly over the wire using a hot air gun.
