## DEACIDIFICATION SPRAY

Bookkeeper Spray Products safely treat single items, including manuscripts, documents, clippings, maps, posters, and other paper-based materials contained in modern library and archival collections.

Bookkeeper suspension dries odor free in minutes. Bookkeeper does not damage inks, adhesives, or binding materials. It is non-clogging, non-toxic, non-hazardous, non-flammable, does not contain CFC's and is completely safe for the environment.

The Bookkeeper process preserves and protects all forms of paper based materials. It deposits a safe, non-toxic alkaline buffer into the structure of the paper. This buffer material neutralizes acids that can rapidly weaken the paper and cause it to become brittle. They do not expire.
