

## DRYTAC ARTSHIELD U.V. HEATSET OVERLAMINATING FILMS

These DRYTAC PVC laminating films are extremely versatile and easy to apply and can be used to protect prints, posters and resin coated photographs. These **pre-pierced** films which come in handy rolls consist of PVC films backed with a low tack adhesive and covered with a release liner. Mounting at 185°F–210°F (85°C–99°C) forms a permanent non-reversible bond. Sponge foam overlay is recommended for consistent finish.

**Item No.                      Size**

**Satin Finish Laminating Film - Pre-pierced**

3 mil. - The most popular film giving a pleasing luster finish after heat sealing.

- 681                       25.5" x 50'
- 682                       41" x 50'
- 683                       51" x 50'

**Matte Finish Laminating Film - Pre-pierced**

4 mil. - Lightly textured - non glare matte finish ideal for exhibition work.

- 684                       25.5" x 50'
- 685                       41" x 50'
- 692                       41" x 300'

**"Fine Linen" Laminating Film - Pre-pierced**

5 mil. - Textured linen finish after heat sealing.

- 687                       25.5" x 50'
- 688                       51" x 50'

**Deep Canvas Texture Laminating Film**

This is a premium 10 mil (190 micron) non-perforated embossed PVC (vinyl) laminating film with a pronounced coarse canvas texture. Its additional thickness offers a more versatile canvas texture than any comparable film on the market.

- 689                       25.5" x 50'
- 690                       51" x 50'

## TACKING IRONS

### 21st Century Tacking Iron

Includes wire metal stand and 100% cotton sock.

Precise, electronic temperature control makes the 21st Century Tacking Iron the one to consider when critical temperature maintenance is necessary. The built-in solid-state temperature control keeps the shoe temperature within 3°F of the dial. The dial is located on the cool handle, not the hot iron itself, so you won't burn your fingers. This unit heats up quickly and accurately. Temperatures range from 150°F to over 420°F. With curved sides and a rounded

point, the 21st Century allows you to easily reach tight spots without ripping or gouging any part of the artwork. Its coated surface resists scratches and adhesive buildup.

**Item #694**

### Black Baron Tacking Iron

Complete with wire stand and 5 1/2' AC power cord

Designed for easy, professional-quality heating and tacking needs. Dial thermostat allows temps from 150°F to 410°F to be achieved. Glide easily over fabric or film surface due to the 100% coated shoe. The professionally designed shoe with its rounded sides and toe allows

for clean and efficient tacking.

## HOT/COLD VACUUM PRESSES

- Innovative glass heating system
- Sturdy construction
- Auto cycle cut-off
- Manual override for maximum flexibility
- Hot or cold usage
- Pressure control valve
- Digitally controlled heat and time settings.

Suitable for all mounting, heatsealing and canvas bonding processes. This range of glass top vacuum presses has been designed with standard display formats in mind. Each model is capable of handling the widest variety of materials from foam board and wood to photos, art prints and delicate fabrics. Incorporating the highly effective glass heating system, these presses produce a very even spread of heat across the work surface, leading to a superior quality of surface finish. All models include a built-in, digitally controlled timer. This timer can be set for any chosen period and will cut off the pressure at the end of the programmed cycle. A manual override switch allows the program to be interrupted at any time. This gives the operator maximum flexibility, ease of use and optimum quality results. The degree of pressure applied can also be controlled to assist when processing foam centered board or delicate subjects such as fabrics.

**Item No.                      Overall Size                      Diaphragm Area**  
**VACUUM PRESSES**

<b>HGP260</b>	39" x 51"	36" x 48"
<b>HGP360</b>	47" x 71"	44" x 68"
<b>HGP560 *</b>	51" x 99"	48" x 96"

**VACUUM PRESS STANDS**

Quality made stands offering a firm and sturdy support for our vacuum presses above.

- STA260**                      for model HGP260
- STA360**                      for model HGP360

## PROFESSIONAL CANVAS STRETCHING PLIERS

Item # 934

- Heavy duty pliers for all types of canvas for professionals who demand the best.
- 8" long with 3" non-slip jaw fits comfortably in your hand for easy use.

## CHROME CANVAS STRETCHING PLIERS

Item # 935

- Heavy duty chrome plate steel.
- Spring return handle.
- 8" long with 2 1/4" serrated jaws provide perfect non-slip canvas grip.

## 8" PROFESSIONAL GLASS PLIERS

Item # 936

- Heavy duty professional glass pliers made of forged steel with 1" flat jaws.
- Flat jaws smoothly clamp onto scored glass for safe snapping
