

PROFESSIONAL CANVAS STRETCHING PLIERS

Item # 934 ☑

- Heavy duty pliers for all types of canvas for professionals who demand the best.
- 8" long with 3" non-slip jaw fits comfortably in your hand for easy use.

CHROME CANVAS STRETCHING PLIERS

Item # 935 ☑

- Heavy duty chrome plate steel.
- Spring return handle.
- 8" long with 2 1/4" serrated jaws provide perfect non-slip canvas grip.

DRYFAC HOT/COLD GLASS TOP VACUUM PRESSES

- Innovative glass heating system
- Sturdy construction
- Auto cycle cut-off
- Manual override for maximum flexibility
- Hot or cold usage
- Pressure control valve
- Digitally controlled heat and time settings.

Suitable for all mounting, heatsealing and canvas bonding processes. This range of glass top vacuum presses has been designed with standard display formats in mind. Each model is capable of handling the widest variety of materials from foam board and wood to photos, art prints and delicate fabrics. Incorporating the highly effective glass heating system, these presses produce a very even spread of heat across the work surface, leading to a superior quality of surface finish. All models include a built-in, digitally controlled timer. This timer can be set for any chosen period and will cut off the pressure at the end of the programmed cycle. A manual override switch allows the program to be interrupted at any time. This gives the operator maximum flexibility, ease of use and optimum quality results. The degree of pressure applied can also be controlled to assist when processing foam centered board or delicate subjects such as fabrics.

21st CENTURY TACKING IRON

Includes wire metal stand and 100% cotton sock.

Precise, electronic temperature control. Built-in temperature control keeps the shoe temperature within 3°F of the dial. The dial is located on the cool handle. Heats up quickly and accurately. Temperatures range from 150°F to over 420°F. With curved sides and a rounded point, you can easily reach tight spots without ripping or gouging any part of the artwork. Its coated surface resists scratches and adhesive buildup.

Item #694 ☑

BLACK BARON TACKING IRON

Complete with wire stand and 5 1/2' AC power cord

Designed for easy, professional-quality heating and tacking needs. Dial thermostat allows temps from 150°F to 410°F to be achieved. Glide easily over fabric or film surface due to the 100% coated shoe. The professionally designed shoe with its rounded sides and toe allows

for clean and efficient tacking.

Item #693 ☑

D&K expression™ (aka Bienfang)
Perfecting Your Image.

EXPRESSION TACKING IRON

Designed to tack materials into position on a substrate using the base of the shoe to melt heat-activated adhesives. Prevents the material from shifting before processing in the dry mounting press. Non-stick surface on the shoe. Built with a preset, self-regulating control for safe operation and long life.

MECHANICAL DRY MOUNT PRESS

Table-top, heat-activated dry mounting systems built to stand up to heavy use for years. They utilize uniform heat and pressure to mount, laminate, and texture prints on substrates up to 1" thick (model #979). Features electronic temperature control (100°-300°) with easy-to-read digital display and touch pad controls. Capable of finishing pieces even larger than the press itself. Six pre-set programs. UL listed. 120V, 12 amp.
