Rag Mat: Museum

RagMat's properties faithfully adhere to the requirements of conservators in museums and libraries throughout the world.

Crescent's entire line of cotton RagMat, the industry's most trusted brand of cotton rag matboard, is still produced following the time-honored practice of making paper from cotton fiber. Rag Mat is the only matting backed by a *limited lifetime warranty*.

Cotton RagMat is Pure and Environmentally-Friendly

Cotton is nature's purest form of cellulose. It is inherently free of lignin, acid and other non-cellulose contaminants found in wood pulp. Cotton fiber pulp is reliable, sturdy and far superior to bleached, chemically processed wood pulp. Cotton has a natural, lasting brightness that does not require the high level of bleaching agents typically used to whiten chemically processed wood pulp boards.

Cotton RagMat is Natural

RagMat Museum Solids, RagMat Solids and RagMat meet all of the stringent standards of conservation professionals.

Cotton RagMat is Time Tested

For centuries, cotton rag paper, prized for strength, purity and stability, has been the choice of artists, composers, writers and printers. Virtually all museums and libraries rely on cotton rag matboard.

Cotton RagMat is Strong

The long flat fibers of natural cotton pulp intertwine, creating a strong, resilient matboard and more durable than bleached chemical wood pulp fiber. RagMat Museum Solids, RagMat Solids, and the core and backing of RagMat are all made from 100% virgin cotton linter pulp. This assures unequalled cleanliness and purity.

Cotton RagMat is Colorful

Only the finest pigments are used to create the colors of our RagMat products. All of these colorants are designed to meet the highest levels of conservation standards. They are bleed resistant so that no color leaches onto the artwork. They provide maximum fade resistance, meeting the most stringent requirements for light-fastness. They are designed for consistency, avoiding color shifts within a production run.
