

**LINECO METHYL CELLULOSE Adhesive**

A neutral pH adhesive that is great for long term stability. Excellent for use in repairs, bookbinding, art construction, hinging and general archival adhesive applications. Dries clear. Reversible with cold water.

- Neutral pH
- Non-toxic
- Clear-drying
- Vermin-proof

Item #	Size	1 bottle	2+ bottles
L7931001	1.5 oz		

**LINECO Gray FRAME BACKER PAPER**

This backer paper will add value and differentiate the quality of framed artwork. Acid-free and buffered with 3% calcium carbonate to protect the artwork. Moderate porosity allows the frame package to breath and the standard weight paper cuts cleanly and is easily handled. 40lb. paper. Passed PAT.

Item #	Size	1 roll	3+ rolls
L6130035	36" x 300 ft		

**LINECO PURE WHEAT STARCH ADHESIVE**

Mount museum quality works with pure wheat starch adhesive. pH neutral and requires cooking. A very carefully purified, uncooked food-grade wheat starch. When cooked, it makes a superior smooth wheat paste adhesive.

Item #	Size	1 bottle	2+ bottles
L6151002	2 oz		

**LINECO PURE RICE STARCH ADHESIVE**

Mount museum quality works with pure rice starch adhesive. pH neutral and requires cooking. Similar to wheat starch, but it yields a lighter, thinner starch adhesive paste after cooking.

Item #	Size	1 bottle	2+ bottles
L6151502	2 oz		

**KLUCEL G CELLULOSE ADHESIVE**

Can be dissolved in either water or alcohol. In alcohol its solubility presents the most useful possibility. It introduces the prospect of adhesion without the deformation that water can cause. Also a leather consolidant that assists in the prevention of the spread of damage caused by red rot.

- Won't be metabolized by molds or pests
- No refrigeration necessary
- Extensive hand drying with desiccated blotters is no longer critical
- Allows the creation of hinges nearly as wide as the artwork itself

Item #	Size	Price Each
L6155582G <input checked="" type="checkbox"/>	2 oz.	
L6155588G <input checked="" type="checkbox"/>	8 oz.	

**COROPLAST Archival Corrugated Plastic Sheets**

3/16" (4mm) lightweight, waterproof corrugated plastic used for backing in frames, archival packaging, boxes and advertising signage. Color: white

267	3/16"-48" x 96"	Natural	White	15			
268	1/2"-48" x 96"	White	White	12			

**LINECO PAPER & BOARD pH TESTING PEN**

Easily determine whether the paper and board you are using is acidic. Easy-to-use, simply draw a small line on the material you wish to test. The chlorophenol red indicator solution in the pen will turn purple on any paper with a pH of 6.8 and above. A clear or yellow color indicates the material is probably unsuitable for conservation purposes. Please note: unreliable results may occur on colored or coated papers

**LINECO WHITE NEUTRAL pH ADHESIVE**

Used for collages, adhering mats, objects within a frame and bookbinding. Will not brittle with age. Excellent lay properties, good open time and is quick setting. Not recommended for hinging art. Remoistens with water.

Item #	Size	Price Each
L9011008 <input checked="" type="checkbox"/>	8 oz.	

**DEACIDIFICATION SPRAY**

Bookkeeper Spray Products safely treats manuscripts, documents, clippings, maps, posters, and other paper-based materials contained in modern library and archival collections.

The suspension dries odor free in minutes and does not damage inks, adhesives, or binding materials. It is non-clogging, non-toxic, non-hazardous, non-flammable, does not contain CFC's and is completely safe for the environment.

It deposits a safe, non-toxic alkaline buffer into the structure of the paper. This buffer material neutralizes acids that can rapidly weaken the paper and cause it to become brittle. Does not expire.
